PROFESSIONAL EXPERIENCE

Graduate Trainee | CRM Analytics & Revenue Operations · Jaro Education *Jan 2026 – Mar 2026*

- Engineered a **CRM lead analytics pipeline** in LeadSquared across 3 EdTech verticals — applied data cleaning, segmented 100+ weekly leads by program fit and budget tier; diagnosed revenue conversion bottlenecks via root cause analysis to drive stakeholder-aligned outreach prioritization.
- Built a **Power BI KPI dashboard** with Excel dashboards as backup — tracked conversion rates, pipeline velocity, and revenue analytics via DAX time-intelligence; surfaced reporting automation opportunities that reduced manual effort ~40%.
- Drove **process improvement** across 6 qualification criteria through iterative scoring logic refinement — improved pipeline conversion quality and delivered weekly business intelligence reports to sales stakeholders.

Google Student Ambassador · Google India *Aug 2025 – Dec 2025*

- Ranked **Top 250 nationally** among 10,000+ ambassadors — grew community to 500+ members; led 10+ workshops and 3 cross-campus events (200+ participants each) driving AI & data literacy adoption.
- Built an open-source **GID-linked Gemini prompt launcher** deployed to 500+ members — tracked execution metrics and reported engagement results to Google program leadership.

KEY PROJECTS

NIKA — AI Analytics Platform | *Python · Gemini AI · Flask · Pandas · React · REST API · SQLite* nika-xi.vercel.app · github.com/jaijaijai353/NIKA--main

- Architected a **full-stack AI analytics platform** with Gemini AI, automated ETL pipelines, and a Power BI-style dashboard — dataset upload, data cleaning, statistical analysis (anomaly detection, Benford's Law), and NL-query reporting.
- Onboarded **20+ institutional users**; **shortlisted among 500+ at NIAT 2025** (OpenAI Academy × NxtWave) — eliminated manual multi-source reporting through a self-serve analytics layer.

Blinkit Regional Sales Dashboard | *Power BI · DAX · Power Query · Star Schema · Excel* github.com/jaijaijai353/Blinkit-Sales-Dashboard

- Modeled a **5-table star schema with DAX time-intelligence** — delivered executive views across revenue, order fulfillment, delivery SLA, and RFM segmentation; replaced manual cross-functional reporting entirely.

Netflix Content EDA Pipeline | *Python · Pandas · NumPy · Matplotlib · Seaborn · scikit-learn* github.com/jaijaijai353/Netflix-EDA-Analysis

- Built a modular EDA pipeline over **5,000+ records** — automated validation, outlier detection, and multi-step cleansing; uncovered 3× spike in international originals post-2015 and genre-level rating shifts.
